## THIRTY THOUSAND HOMELESS; FINANCIAL LOSS \$10,000,000

### Lives of Hundreds Are Menaced by Raging Floods—Levees Give to Strain. 2,000 Square Miles Inv.

Thirty thousand persons homeless, 2,000 square miles of country inundated, 30 persons drowned and a financial loss of \$10,000,000 constitute the result of a two weeks' flood in the Mississippi valley.

These figures were arrived at last night by government engineers and officials of state levee boards engaged in battling the ravaging sweep of the Mississippi river from points in Illinois to threatened places in Mississippi and Arkansas.

Water is pouring into Arkansas through three new breaks in the levee south of Memphis. These gave way yesterday and several hundred square miles are subject to flooding.

Railroad traffic is practically paralyzed. Hundreds of persons still are menaced by the tide of the river at points in lower Missouri, northwestern Tennessee and Arkansas. They are marooned on house-tops, in trees and on anchored rafts directly in the sweep of the river.

Hourly the danger zone works southward. In their upper reaches, the Ohio and Mississippi rivers are practically at a standstill. This means that the crest of the flood now is exerted on the dikes from the Missouri line southward.

State and levee board officials in the districts south of Memphis have been laboring all day to top the strained levees. Mississippi officials think their embankments will hold.

MEMPHIS, Tenn., April 7.—In the wide stretches of the Mississippi's flooded acres tonight there are three striking pictures. The northernmost is the 500 square miles of the Reelfoot lake country of Tennessee, where 2,000 or more persons have been driven from their homes by the bursting of a Mississippi levee in southwestern Kentucky. In this district thousands of acres of fertile fields are under water. Scores of persons who

are forced to desert their homes are imprisoned in upper floors of roofs of flood-menaced houses. A few miles south in Arkansas three miles are under water. From this "bottom" country hundreds of miles and villages have been swept over the top of the levee on the Arkansas side of Memphis.

Today great numbers of persons are on roofs of houses and in some have been taken out of the flooded areas in boats. Probably many are in peril. There are not boats enough to perform the rescue work. Countless flooded are Crittenden and Cross. The scene south of these points impresses one with the extent of the damage in the levee above.

The small farmer and settler of the flood means flight. Hundreds of such persons have fled, however, to leave their homes. Many instances they have been taken by force. There have been reports of fatalities among whites and negroes who risked their lives to save their mules.

How the Story Is "Covered"

Attempts to "cover" the story along the line of levees from south Mississippi to Arkansas have been many personal risks on the part of newspaper correspondents. One of the most daring exploits was successfully achieved by a young correspondent who floated on a log on the crest of a tide when the levee broke at Tipton. He made his way to Tipton. Then then telephoned his story to the Reelfoot country.

His news writer, a young woman, Hickman, K.S., half swim half waded to the long distance telephone in order that the first definite of the rescue of a thousand persons from the Reelfoot country.

### TALKS ON WORSHIP OF IDOLS IN PRESENT DAY

In his sermon at the noon's meeting in the Y. M. C. A. yesterday afternoon, the Rev. J. S. Wilson, pastor of the United Presbyterian church, had for his text: "Thou art weighed in the balances and art found wanting," found in Daniel, vii. 10. Ralph Young sang several selections.

Mr. Wilson began by telling of the worship of Beelzebub and the various other gods, taken from the holy scriptures. The weaknesses that were familiar in Beelzebub's day are still with us, Mr. Wilson said.

"God not only judged the kings and rulers of olden times, but he brings people in our modern days to judgment," he said. "We cannot trifle any more with God now than they could then. Because Beelzebub was making himself greater than God, judgment was passed against him.

"The men of today live proud, boastful lives, defying God in many ways as did Beelzebub. One way is in drinking to an excess, others defy God in their love of gold and silver; others show their defiance in the love of the gay crowd. There is danger in the drink and the cigarette evil, lack of love for the Bible, Sabbath desecration and trifling with holy things. You all should show respect to your mother's Bible.

"The day of idol worship has not passed. All things that we put in place of God are idols. In so doing, there is danger of our being weighed in the balances and found wanting."

### CROWDS TAKE ADVANTAGE PERFECT EASTER WEATHER

Were you on dress parade yesterday? If you were not, it is your own fault, for the weather man lived up to his agreement and delivered the best brand of weather he had in stock, and it did not come from Medicine Hat, either.

Easter Sunday dawned bright and clear, and remained that way all day. Not a cloud marred the sky, and with the exception of a slight wind, which was disagreeable for a short time during the afternoon, the day was perfect. And practically every maid and matron in Colorado Springs took advantage of the day to show off their new hats and gowns.

Special Easter services were given at all the churches, and excellent programs were arranged. The floral decorations were beautiful.

The first open-air orchestra concert of the season was given at Stratton park yesterday afternoon, and hundreds took advantage of the fine day to attend.

Besides sending perfect weather for dress parades and orchestra concerts, the weather man did something else yesterday, for which he was duly thanked by everybody. He sent such warm weather that the street railway company decided to put their open cars on the Canon and Casino lines, for the first time this year.

### ANNUAL MEETING OF WORK CO. APRIL 11

Date Again Changed Reports Issued For Fiscal Year Ending March 31

The annual meeting of the Work Mining and Milling company, which was to have been held April 1, and which was postponed because a quorum was not present, will be held in the offices of the company in this city next Thursday, April 11. The postponed meeting was first set for May 1 but it was deemed advisable to hold it at an earlier date.

President J. Arthur Campbell has submitted the profit and loss and treasurer's report for the fiscal year ending March 31, 1912. Mr. Campbell's report briefly cites the case with the Doctor-Jack Pot Mining company, and tells of the accomplishments of the year.

The treasurer's report shows a profit for the year of \$157,511 before charging for profit and loss the company's subscription of \$5,000 to the drainage tunnel. The company has \$5,000 cash in the bank, open account, and \$12,000 in certificates of deposit. The cash deposit in the bank to assure appeal bond is \$15,000.

### SUGGESTS TEST CASE ON SALE IRRIGATION BONDS

In an opinion given to the state land board last Saturday, by Attorney General Benjamin Griffith, a method is pointed out to protect the state in its purchase of irrigation district bonds with money from the school fund, and at the same time to pay the investment of school funds in worthy reclamation projects which will be greatly aided in the bond markets by the fact that the state itself is an investor in the enterprise.

Mr. Griffith recommends a test suit for the purpose of defining the powers of the land board under the act of 1905, which authorizes the board to buy 10 per cent of the issue of bonds by irrigation districts upon a contract which shall specify that the treasurer of the state shall purchase the bonds when the state engineer shall have certified to the land board that the system of reservoirs, ditches or other irrigation works of the district have been fully completed.

The Montezuma irrigation district of Montezuma county issued \$750,000 in bonds for reclamation work some time ago, and the entire issue was sold to private parties. In order to complete the project, it is now necessary to make a second issue of bonds. State endorsement of this irrigation enterprise is sought; but as the entire first issue of bonds was taken up by private parties, the land board asked the attorney general for an opinion as to whether it could either invest the school funds in the purchase of 10 per cent of the second issue, or if it could buy 10 per cent of the first issue from private purchasers of the bonds.

The fact that the state is interested in the reclamation project would facilitate the disposal of the second issue.

Attorney General Griffith expressed a doubt as to the board's authority to purchase 10 per cent of the second issue, and he states that there is no provision in the statute of 1905 which authorizes the purchase of bonds from parties who bought them from the irrigation district. There is also a doubt as to whether the board can buy first-issue bonds from the district itself after the district has repurchased them from those who bought them.

In his opinion, Attorney General Griffith states that the powers of the board may be clearly defined in court if the board authorizes the investment and then let the state treasurer refuse to make the contract with the state irrigation district. Mandamus proceedings would follow and the question would be judicially settled.

### GIVE CANTATA

The cantata, "Prest and King" was given last night at Ashbury M. E. church before an audience that crowded the house. The choir of 35 voices was assisted by well-known vocalists, among them being Mrs. W. W. Warner, Miss Lucy Graves, Mrs. E. S. Clark, Duane Nelson, Earle Faber and Stanley Edinger.

The choir trained for this cantata for several weeks. The choruses, "Sing Unto the Lord," "Lift Up Your Heads" and "Hark, Ten Thousand Harps," were especially well sung. Mrs. E. C. Grace, church organist, played several organ solos.

The decorations were of a Easter lilies and a large electric lighted cross, decorated with white boughs over the front.

Much of the music will be repeated next Sunday night, and most of the decorations will be left.

The Rev. R. R. Adams, the pastor, preached at the morning service on the "Resurrection of Christ and Our Resurrection."

Kansas City .....	6 14 3	opportune times, the Omaha W
		league team won today from W

newly organized state baseball association, will open Friday, May 24, and close labor day. This was the decision reached last evening at a meeting of the league leaders in Pueblo. Bert Siddons represented Colorado Springs.

Forfeit money was advanced by Colorado Springs, Pueblo, Canon City and La Junta, as a guaranty that the four places would keep a club in good running shape, at least financially, until the season ends. Representatives of Saluda, Trinidad and Eaton, N.M., however, were put down enough money as a guaranty for running expenses but the money was not accepted.

To tell the truth, the other two teams in the circuit will not be known until the time of the next meeting, scheduled within the next two weeks. President Bidwell expects to make a visit to the three places in question and pick out the two that look the best to him from a baseball standpoint. He has been assured that he can get the forfeit money from any of the three places at any time.

Other business transacted at last night's meeting was the appointment of umpires by President Bidwell. The three men chosen are Fritz Hamilton, who umpired in the Texas league last season and who has also been seen here in the Kansas league; Bert Ray, another Kansas league umpire, and Amos Morgan, former American association twirler. Twenty applications were received by Bidwell for places on the umpiring staff.

The Victor ball put out by the Victor Sporting Goods company, has been adopted as the official ball of the league.

President Eidwell is expected to arrive in Colorado Springs today. He will be present at a meeting of the different committees to talk over the park situation. It is also understood that he will announce the personnel of several of the players on the Colorado Springs club. Following his visit here, he expects to make a swing around the circuit, and then leave direct for Kansas City and Excelsior Springs, Mo., where the local players will be in training.

**RIVERS OR MANDOT  
WILL BOX WOLGAST**

**SAN FRANCISCO, Cal., April 7.**—Although no articles have been signed, it practically has been agreed that the 20-round bout between Joe Rivers of Los Angeles and Joe Wainwright of New Orleans be advanced to Memorial day, 41th Ad Wainwright to defend his title as lightweight champion against the winner on July 4, at Los Angeles.

Wainwright will leave Wednesday for Cadillac, Mich., where he will spend a month on his farm. Then he will sail to Pittsburgh and box two six-round bouts with light-eights as to be selected. A 10-round bout at Philadelphia will follow, after which Wainwright will return to Los Angeles about June 1. These short bouts are a sacrifice, with the view of securing a title. Wainwright has recovered fully from his operation for appendicitis.

**CHICAGO, April 7.**—Jack Johnson, champion pugilist, said tonight that the Johnson-Flynn fight would be held at Las Vegas, N. M., July 4.

By W. W. NAUGHTON, Assistant Secretary of the Navy, Washington, D. C.

**BAN FRANCISCO, April 7.**—The National Athletic club of New York has offered \$10,000 for a 10-round bout between Paddy McFarland and Matt Wells, the Englishman, and McFarland has accepted conditionally. The only possible stumbling blocks are weight, terms and division of the money.

In the matter of pounds it may be heavy enough to reach an agreement. Each man carries a few pounds over the light-eight limit and is consequently a sublimated welter. The latter class has a draw plus 145 pounds. Those plus 145 and as a rule it is not customary for welter to haul one another to a payed-for-pound fight. The chances are, if other terms are settled Paddy and Wells will agree to box at 125 pounds, weight to be made a few hours before ring time.

The splitting of the money is likely to be the point on which the boxers will hook horns. Paddy, it is said, is to have 50 per cent and that the other 50 is to be the lion's share, and Wells is sure to rebel.

McFarland, probably as his career

McFarland in New York, having made himself popular there through his masterly handling of Abe Attell and others. In addition he is naturally well educated and is sure to object to Packy's behavior and conduct.

At that it is said that Wells and McFarland would be in the north Atlantic. That is McFarland's favorite place and he would make "abandonment" over such a boat than be down the Atlantic coast for 2000 miles. It is said to be the last of his weight 170 lbs. The president in the U. S. It would be hard to be a heavy weight at the present time. It is said to be the favorite in the boat.

Under the plan have been changed, the two negroes Sam McVee and Langford will box at Sydney. Australia on Monday, May 7, 1911. On
